GERMAINE^{DE}CAPUCCINI SPERIENCE

Wellness Moments, Incomparable Experiences

Technostress has changed our lives. The increase in the levels of stress caused by an excess of information, continuous connection to electronic devices and social networks is the ailment of the XXI century.

The indiscriminate use of technology can cause addiction. Being constantly online, constantly updated, dominated by the compulsion to check emails, answer instant messages or interact on social networks has consequences. Problems of insomnia, headaches, mental fatigue, anxiety, eye tension, vertigo, difficulty to concentrate, etc. are increasing.

**The body-mind connection
is much stronger than we think.**

Everything we do and feel has an impact on our health, finally showing on our skin, which is the mirror of our emotions. Learning to "disconnect" is a priority when delaying the negative effects.

Taking care of oneself is not a whim, but a need.

Balance CONCEPT *Body. Mind. Soul.*

The SPERIENCE line expresses perfectly with **Balance CONCEPT** the philosophy of our products and services: finding the right balance in our daily life. A strategy aimed at reducing stress.

We offer "a pause" in the daily duties that provides a perfect body-mind-soul harmony, thus facilitating a better quality of life.

Our therapies offer global cares, they provide health for the skin and emotional well-being, allowing the client to maintain that balance so necessary for feeling good with oneself, in harmony and happy, even achieving a state of fullness.

Stop, Breathe and Relax.

Discover a whole world of Well-being

Let yourself be enamoured by the new SPA world from Germaine de Capuccini and be an active part of the change. A place to discover the most incredible and unprecedented sensations, where mind, body and spirit enjoy unforgettable experiences.

We present a wide range of services to live an absolute disconnection that allows to renew energies. Exquisite exfoliations, pleasurable wraps, sensational baths, extraordinary massages and innovative body and facial treatments that sublimate the skin and delight the senses.

PRODUCTS

· NEW CLASSIFICATION ·

Our **SPERIENCE** line is made up of a careful selection of latest generation products and services inspired by intelligent cosmetics: **the direct connection between the skin and the emotions**.

Emotions affect our daily life and influence our decisions. They play a very important role, they are mobilising forces that give meaning and colour to daily situations. To feel fear, anger, sadness, happiness or pleasure is as natural as breathing.

The new classification has been designed based both on the functionality of the cosmetic and on the sensory stimulus it transmits. The therapist captures the emotions and determines the most suitable product for balancing the client's mood, making our treatments a unique and memorable experience that projects many therapeutical benefits.

The Spa ritual becomes a gesture that enhances self-esteem.

HOW CAN WE IDENTIFY THE MOST SUITABLE THERAPY?

Each treatment has been divided into a classification according to the use and form of application of the product, as well as the mood benefits it provides with its active ingredients. In this way we help the therapist to choose the most suitable therapy in each case.

HOW TO KNOW WHAT IS THE CLIENT'S CONDITION?

- If the clients lead a fast life, stressed, constantly online, tied to too many responsibilities we will choose **SERENITY** therapies that provide them with that inner peace and balance that is so necessary.
- If they find it hard to sleep, have allergies, skin problems, heavy digestions, headaches, etc. then their body is telling them it needs a change. The **DETOX** therapies will be the most appropriate to reset. A detoxifying treatment that will help mind and body release all those toxins that do not allow to work in optimal condition.
- If they are apathetic, exhausted and overworked, they even are burdened with a sensation of sadness, they cannot see the opportunities that life offers them, then probably they need **ENERGY** therapies that activate their body and increase their optimism. A true recharge of batteries.

SPERIENCE

· BODY ·

The **SPERIENCE** products have been designed to improve the condition of the skin, but also providing intense and different sensations that connect directly with the client's mood, providing deep well-being.

NATURAE

· FACIAL ·

Our **NATURAE** line is the chosen one to complement and be an active part of Spierience.

Organic cosmetics formulated with essential oils and ingredients from ecologically cultivated plants for a more responsible care committed to the environment that helps maintain the health and well-being of our skin and of our planet.

NATURAE bases its activity mainly on the Organic Extract of White Tea. Given its powerful anti-oxidising capacity it blocks the destructive action of the free radicals responsible for premature ageing, allowing to fight the effects of the passing of time. Its provision of Vitamins A, C, B1, B2, B6 and amino acids, especially its content in Teanin, allows a provision of energy for the skin, highly interesting in stressed and fatigued skin.

For all of this **NATURAE** is the perfect line for Spa. **For those who look for a natural lifestyle, respectful and balanced.**
